PROFESSIONAL SUMMARY

Final-year BCom Information Systems & Technology student at the University of KwaZulu-Natal with practical experience in software development, systems analysis, databases, business intelligence and web technologies. I have worked on team-based projects involving C#, ASP.NET, Microsoft SQL Server, Power BI and cloud deployment, as well as personal and academic web projects using HTML, CSS, JavaScript, React, Node.js and Python. Comfortable working from requirements and system design through development, testing, documentation and deployment. I bring a practical approach to solving business problems with technology, strong communication, and a willingness to learn.

KEY STRENGTHS

Software Development

C#, ASP.NET, Java, PHP, Python, JavaScript, React, Node.js

Data & Databases

SQL Server, MySQL, MongoDB, PostgreSQL, Power BI, Excel

Systems & Delivery

Systems Analysis, SDLC, Agile/Scrum, REST APIs, QA & Testing, Documentation

KEY PROJECT

Kwamshana Catering Management System — C# Desktop & Web Application

UKZN Team Project | 5-Member Development Team | 2024–2025 | 70% achieved for Final Milestone (M4)

- Co-developed an end-to-end enterprise solution for a catering business, contributing from requirements gathering through development and deployment.
- Built a C# Windows desktop application connected to Microsoft SQL Server for order, inventory and client management.
- Contributed to an ASP.NET web application and its deployment on Microsoft Azure cloud infrastructure.
- Designed interactive Power BI reports using data modelling, DAX and KPI dashboards to support business decision-making.
- Applied systems analysis, database design, testing and software development lifecycle principles in a collaborative team environment.

ADDITIONAL TECHNICAL PROJECTS

Portfolio Website — Built and refined a personal portfolio using HTML, CSS and JavaScript, including responsive layout, project presentation, downloadable CV links, GitHub/LinkedIn links and contact-form integration.

Web Development Projects — Worked with React/Vite, React Router, Axios, Bootstrap, Tailwind CSS, Node.js and Express.js on web development tasks and application interfaces.

Database & Systems Projects — Worked with relational database design, SQL queries, CRUD functionality, DataGridView interfaces and SQL Server connectivity in C#/.NET applications.

Data & Business Intelligence — Created Power BI dashboards and worked with Microsoft Excel features such as Pivot Tables and advanced formulas for analysis and reporting.

EDUCATION

Bachelor of Commerce — Information Systems & Technology (Final Year)

University of KwaZulu-Natal (UKZN) | 2023–Present | Expected 2026

• Double focus: Information Systems & Technology and Information Systems Computing (ISTN), supported by Business and Commerce modules in IT strategy and management.

TECHNICAL SKILLS

Programming & Web: C# · Java · PHP · Python · HTML5 · CSS3 · JavaScript (ES6+) · React.js · Node.js · Express.js

Frameworks & APIs: ASP.NET Web Forms · Django · React (Vite, Hooks, React Router, Axios) · REST APIs · JWT · bcrypt

Databases: Microsoft SQL Server (MSSQL) · MySQL · MongoDB (Mongoose, Atlas) · PostgreSQL · Database Design · Normalisation

Cloud & Deployment: Microsoft Azure · Oracle Cloud (OCI) · Vercel · Netlify · Render · Git · GitHub

Data & Analytics: Power BI · DAX · Data Modelling · KPI Dashboards · Microsoft Excel · Pivot Tables · Advanced Formulas

Enterprise & Development Tools: Microsoft 365 · Microsoft Dynamics 365 · Oracle Fusion Cloud ERP · Postman · VS Code · Visual Studio · Android Studio · XAMPP

Systems & Methodologies: Agile/Scrum · SDLC · Systems Analysis & Design · QA & Testing · Technical Documentation · Requirements Analysis

PROFESSIONAL SKILLS & LANGUAGES

Communication: English — Excellent written and verbal communication. | IsiZulu — Excellent written and verbal communication (Home Language).

Professional strengths: Problem-solving · Teamwork · Attention to detail · Adaptability · Time management · Analytical thinking · Willingness to learn
