PROFESSIONAL SUMMARY

Final-year Bachelor of Commerce student at the University of KwaZulu-Natal, specialising in Information Systems & Technology, with a current academic average of 70% reflecting consistent performance across technical and business modules. Hands-on experience across the full software development lifecycle, from systems design through to cloud deployment. Co-developed an end-to-end enterprise solution for a catering business (Kwamshana) as part of a 5-member development team, building a C# Windows desktop application integrated with a Microsoft SQL Server (MSSQL) relational database, and contributing to a companion ASP.NET web application deployed on Microsoft Azure cloud infrastructure. Designs and delivers interactive Power BI business intelligence reports for data-driven decision-making. A strong communicator in English and IsiZulu with a collaborative, detail-oriented approach to bridging technology and real-world business needs.

KEY PROJECTS

Kwamshana Catering Management System — C# Desktop & Web Application

UKZN Team Project · 5-Member Development Team · 2024 – 2025 · 70% achieved for Final Milestone (M4) ★

- Co-developed an end-to-end enterprise solution for a catering business, from requirements gathering through to deployment.
- Built a C# Windows desktop application integrated with a Microsoft SQL Server (MSSQL) relational database for order, inventory, and client management.
- Contributed to a companion ASP.NET web application, successfully deployed on Microsoft Azure cloud infrastructure.
- Designed and delivered interactive Power BI business intelligence reports, enabling data-driven decision-making for stakeholders.
- Applied information systems analysis and design principles throughout, demonstrating practical competency across the full software development lifecycle.

EDUCATION

Bachelor of Commerce — Information Systems & Technology (Final Year)

University of KwaZulu-Natal (UKZN) · 2023 – Present (Expected 2026)

- Double focus: Information Systems & Technology and Information Systems Computing (ISTN), supported by Business and Commerce modules in IT strategy and management.
- Current academic average: 70%.
- Student Number: 223038623.

TECHNICAL SKILLS

Frontend: HTML5 · CSS3 · JavaScript (ES6+) · React.js (Vite, Hooks, React Router, Axios) · Bootstrap · Tailwind CSS

Backend: Node.js · Express.js · ASP.NET Web Forms (C#, MasterPage) · PHP · Python (Django) · Java · REST APIs · JWT · bcrypt

Databases: Microsoft SQL Server (MSSQL) · MySQL · MongoDB (Mongoose, Atlas) · PostgreSQL · Database Design & Normalisation

Cloud & DevOps: Microsoft Azure · Oracle Cloud (OCI) · Vercel · Netlify · Render · Git · GitHub

Data & Analytics: Power BI (DAX, data modelling, KPI dashboards) · Microsoft Excel (Pivot Tables, advanced formulas)

Enterprise Tools: Microsoft 365 · Microsoft Dynamics 365 · Oracle Fusion Cloud ERP · Postman · VS Code · XAMPP

Methodologies: Agile/Scrum · SDLC · Systems Analysis & Design · QA & Testing · Technical Documentation

PERSONAL SKILLS & LANGUAGES

- English — Excellent written and verbal communication skills.
- IsiZulu — Excellent written and verbal communication skills (Home Language).
